Plant Feature: Pothos Golden

Bring vibrant color and eye-catching variegation to interior spaces with the Pothos Golden, a beloved trailing plant known for its striking green-and-yellow marbled foliage and incredibly easy-care nature. A staple in interiorscaping and plant design, Golden Pothos is prized for its adaptability, fast growth, and ability to brighten up any environment with minimal effort. Interiorscapers consistently choose this variety for its visual impact, reliability, and versatility.

Why you'll love it:

-  **A True Interiorscape Favorite:** Pothos Golden is one of the most recognizable and widely used foliage plants in the industry. Its durability and flexibility make it a dependable choice for both large commercial installs and residential spaces.
-  **Bright, Variegated Foliage:** This variety features heart-shaped leaves splashed with golden-yellow variegation against a rich green base. The contrast adds warmth, dimension, and a natural pop of color that livens up any interior.
-  **Versatile Trailing or Climbing Habit:** Pothos Golden adapts beautifully to a variety of design applications. It can be styled to suit nearly any space, including
 - A trailing plant from shelves or hanging baskets
 - A climbing plant on moss poles or trellises
 - A tabletop or desk plant with controlled growth
-  **Fast Growth with High Visual Impact:** Known for its vigorous growth, Pothos Golden fills in quickly and creates a lush, full look in a short amount of time—perfect for softening spaces or adding greenery fast.
-  **Highly Adaptable to All Light Environments:** This plant performs well across a wide range of lighting conditions, making it a great choice for diverse interiors.
 - *Low light:* Maintains growth, variegation may be less pronounced
 - *Medium light:* Encourages balanced growth and healthy color
 - *Bright indirect light:* Enhances variegation and promotes faster growth
-  **Forgiving Water Needs:** Golden Pothos prefers to dry slightly between waterings and is very tolerant of occasional neglect. It's an excellent option for both maintenance programs and beginner plant owners.
-  **Durable, Resilient Foliage:** The leaves are sturdy and hold up well in high-traffic areas, maintaining their appearance even in busy environments.

-  **Size:** We sell Pothos Golden in **6-inch and 8-inch pots**, ideal for both tabletop use or hanging displays. With proper care, vines can trail or climb **6–10 feet or longer**, depending on how the plant is maintained and styled.

Additional Names: Golden Pothos, Devil’s Ivy, Variegated Pothos, Epipremnum aureum

Perfect for:

Commercial interiors, office spaces, shelving and cabinetry, hanging installations, residential interiors, and any project requiring a fast-growing, low-maintenance plant that adds color and movement.

Additional Information:

Pothos Golden is one of the most resilient and adaptable foliage plants available. It tolerates a wide range of conditions and typically has minimal pest issues. In rare cases, spider mites or mealybugs may appear, but routine care and inspection keep the plant thriving.

Grower’s tip:

- Remove from grow pot and place directly into a planter or a larger pot for better moisture retention and you won’t have to water it as often
- Trim vines regularly to encourage fuller growth
- Can be propagated easily from cuttings in water
- Performs best in medium to high light but can tolerate low light
- Allow soil to dry slightly between waterings

Pairs well with:

Zamioculcas zamiifolia, Aglaonema, Philodendron, compact palms, and dracaena varieties that contrast nicely with its bright variegation and trailing form.

Key characteristics:

Attribute	Profile
Light	 All – Low Medium and High
Water	 All – Low Medium and High
Pest Resistance	 Average
Growth Habit	 < 4 feet
Popularity	 Stable
